19th June 2022

Dear Sir/Mdm

Ref: TESTIMONIAL FOR AN YONG SHYAN

An Yong Shyan is a determined student who will put his heart and soul into something that he has interest in. My first impression of this young gentleman was when I saw him doing pull-ups during recesses religiously, taking his physical fitness seriously and trying out difficult moves, and in the process inspiring many others to follow. For a soft-spoken boy, I thought he would find it difficult to be my Physical Training Instructor in National Cadet Corps (NCC). But the faith and abilities in his abilities showed me a different side of him. He was a natural leader who could inspire many of his juniors to see physical training as engaging and challenging!

Although he was not a Computing student in the school, he has a deep interest in computing as a subject. I was surprised that he was quite well-read in computing. Hence I offered him courses that were only offered to computing students. It further piqued his interest and curiosity. At times where most student who would just give up and wait for the answers to be shared, he would be seen determined to get the answer on his own. He was able to perform as well as some other computing students. When the Amazing Race Virtual Hunter 2022 conducted by Ngee Ann Poly ended, Yong Shyan was very clear that he wanted to pursue Cyber Security in his next stage of education.

I was sure that throughout the course of his development, Yong Shyan would be relentless in his pursuit once he decided on something he wants, as he has been demonstrating in his secondary school years.

Thank you.

Yours faithfully

Mr Chia Chun Keong
Computing Teacher, CCA Parent
